Endoscope **Repairs**

When you send your equipment to **B&H SURGICAL**, one of our highly trained technicians will carefully inspect your scope using our 36-Point Inspection Process. Our technician will note any and all problems and provide feedback as to the potential cause of the problem. Your repair will be kept in our database for tracking of on-going issues.

At **B&H SURGICAL**, we understand the on-going need to work with the constraints of a repair budget. For this reason we will help you to prioritize repairs and make recommendations that will help to prepare you for appropriate investment. From small repairs that can be done within a day, to major overhauls that return your scope to "like new" condition, **B&H SURGICAL** is committed to great service, quality, and fast turn times, all at a competitive price.
