

DigiDop™ Handheld Dopplers

Each DigiDop comes standard with your choice of probe. All probes are interchangeable between main units

DigiDop 300

DD300

The DigiDop 300 is Newman Medical's non-display, hand-held Doppler with first in industry digitally optimized processing, magnetic probe holder, excellent battery life, interchangeable probes, and a comprehensive two-year warranty.

DigiDop 301

DD301

The DigiDop 301 is Newman Medical's non-display, rechargeable hand-held Doppler with first in industry digitally optimized processing, magnetic probe holder, excellent battery life, interchangeable probes, and a comprehensive two-year warranty. Each 301 comes with an intelligent charging system.

DigiDop 700

DD700

The DigiDop 700 is Newman Medical's display, hand-held Doppler with first in industry digitally optimized processing, magnetic probe holder, excellent battery life, interchangeable probes, and a comprehensive two-year warranty. The display shows battery life, heart rates between 50-220 bpm, and a confidence indicator of the signal.

DigiDop 701

DD701

The DigiDop 701 is Newman Medical's display, hand-held Doppler with first in industry digitally optimized processing, magnetic probe holder, excellent battery life, interchangeable probes, and a comprehensive two-year warranty. The display shows battery life, heart rates between 50-220 bpm, and a confidence indicator of the signal. Each 701 comes with an intelligent charging system.

DigiDop Probes

For use with all DigiDop™ models. Each purchase of a main unit includes choice of one probe.

DigiDop 2MHz

DD-2MHz

The DigiDop 2MHz probe is optimized for later term pregnancies or larger patients.

DigiDop 3MHz

DD-3MHz

The DigiDop 3MHz probe is our general purpose obstetrical probe. It is optimized for early fetal heartbeat detection and use throughout pregnancy.

DigiDop 5MHz

DD-5MHz

The DigiDop 5MHz probe is optimized for deeper vessels in vascular applications.

DigiDop 8MHz

DD-8MHz

The DigiDop 8MHz probe is our general purpose vascular probe. The DigiDop 8MHz probe is optimized for peripheral vessels in vascular applications.
